

Gift Registry Enterprise Edition

Gift RegistryWorks is a platform independent, customizable gift registry solution for in-store and Internet deployment, designed specifically for multi-channel chain stores.

- ✓ Drives revenue, builds customer loyalty and reduces costs
- ✓ Promotes suggestive selling opportunities
- ✓ Integrates with existing store systems
- ✓ Utilizes a single database for both in-store and the Internet
- ✓ Multilingual
- ✓ Supports secure e-commerce
- ✓ Software Development Kit (SDK) available

Gift RegistryWorks supports user-defined multiple gift giving occasions such as weddings, baby showers, anniversaries, housewarmings, birthdays and anytime wish-lists.

Wish Lists

Today, successful forward thinking specialty retailers are driving revenue generated from new customers by implementing "Wish Lists". Our Wish Lists are designed for a customer to select items they would like for themselves -- everything from CD's, toys and apparel to jewelry and power tools. Items can be scanned in the store or selected over the Internet so that relatives and friends, around the world, can purchase from the list.

Multi-Channel Single Solution

Gift RegistryWorks is able to support both in-store and Internet applications, and comes with support tools and utilities. Functionality is flexible, modular and scalable. It can fully integrate with retailer systems for price, inventory and product information, credit card authorization and order fulfillment. Hand-held scanners can be utilized to add items to registries. Customer information and buying profiles can be collected for evaluation, reporting and marketing purposes providing increased value and function.

Proven Platform

Gift RegistryWorks is a multilingual, multi-event gift registry software platform providing advanced gift registry functionality both in-store and through the Internet. With thousands of installations to date, Gift RegistryWorks has proven to be the industry's leading edge interactive multi-channel gift registry platform.

Happy Customers and Employees

MarCole's Gift RegistryWorks provides easy access to registries with several search choices and displays or prints the registration by product category and/or price, simplifying the shopping experience.

High quality images of registered items can be displayed. Data entry can be accomplished manually or by hand-held barcode scanners, either by store personnel or directly by the registrant.

Sales are quickly updated chain-wide and on the Internet to avoid gift duplication.

Several preconfigured reports are available at the store and corporate-level.

Gift RegistryWorks offers retailers both the opportunity to enhance customer service and to reduce related servicing costs.

E-Commerce

- ACCEPT ORDERS
 - CHECK INVENTORY
 - VERIFY CREDIT
 - GATHER BILLING/SHIPPING INFORMATION
